about "my music events for friends" 'mmeff'

august 2012

what is it?

it's my way of thanking my friends for whatever they gave me - from being truly kind to helping me through all sorts of demands or troubles ... 'mmeff' happens once a year ...

how is it designed?

i choose my musicians and set up an ensemble - every year a different one. and i provide a venue, a little restaurant in carlton-north owned by a friend of mine, for a "music night", to which i then invite about fifteen people ... why music? simply because i have loved it all my life, and think it's the best thing to delight my friends ... and every year i create a music image for my invitation letter ...

of what do i take care?

beside organizing the music event, i set up flowers and a picture gallery, and provide red & white wine and red & white sparkles ... i do finance the band, cover all drinks, plus the dinner for my musicians ... after the concert, they sometimes get invited to my house for a farewell chat ...

who is invited:

only my friends, based on personal invitations ... it's a private event, and they cannot bring along other people ...

where to look up the history of my event?

on this website (rohrmannspace.net), click "music events for my friends", to get my photographs and texts from all music nights since 1998 ...

what does it mean for me?

a lot a lot a lot - it's *the* event for me since i live in australia, in my personal 'philosophy of life' ...
